SS FLOW
A NEVER ENDING JOURNEY

WHO WE ARE

"We SS Automation & Instrumentation Company are manufacturer and importer of Process Instruments products like Flow, Level, Analysers, and other process instruments, having in-house Testing and Calibration facilities based at Thane since 2020. The promoter of this company has more than 11 years of experience in process control equipment in different industries like Steel Plant, Power Plant, Pharma, etc. The Master instruments are calibrated at NABL-approved laboratories. We believe in giving our best technology after understanding the crucial application, considering cost-effective solutions with Transparency and an Ethical approach towards our customers.

We believe in dealing with the best quality products at the most competitive rate. Our business objective is to ensure our best technology after understanding the crucial application with cost-effective solutions. Our team, technically expert with an understanding of wide applications in the knowledge of process industries, enables us to make the optimum selection of suitability with complete customer satisfaction. We believe in transparency and an ethical approach towards our customers in our nature. With the help of our professionals and rich industry experience, we are meeting the diverse requirements of clients by providing the best class products/solutions. We make these products/solutions available for our.

BUSINESS OBJECTIVE

At S S Automation & Instrumentation Company, our core business objective is to enhance customer satisfaction by consistently delivering high-quality, reliable process instruments and solutions at competitive rates. We aim to achieve a 20% increase in customer satisfaction within the next year by implementing comprehensive feedback mechanisms and optimizing our customer service processes. Our commitment to transparency, ethical practices, and a deep understanding of diverse industrial applications empowers us to provide cost-effective, tailored solutions that meet the unique needs of each client. With our technically proficient team and rich industry experience, we strive to build long-lasting relationships based on trust, excellence, and mutual growth.

VISION

"A world where industries operate seamlessly and efficiently, leveraging cutting-edge process instrumentation and technology to achieve unparalleled precision and productivity."

MISSION

To be the leading provider of innovative and reliable process instrumentation solutions, committed to enhancing operational efficiency and customer satisfaction through superior technology, ethical practices, and exceptional service."

OUR SERVICES

► **Customized Solutions**

At SS Automation & Instrumentation Company, we pride ourselves on our ability to offer tailored solutions that meet the unique requirements of each customer. After thoroughly understanding the application and specific needs of our clients, we provide comprehensive instrument solutions that include testing, installation, and conditioning. Additionally, we specialize in offering customized solutions for online monitoring systems, ensuring optimal performance and reliability.

► **OEM Solutions**

Our experienced team is adept at understanding the specific requirements of Original Equipment Manufacturers (OEMs). We deliver tailored solutions for various projects and products, including HVAC systems, ET furnaces, boilers, and more. Our offerings encompass complete SITC (Supply, Installation, Testing, and Commissioning) services, ensuring seamless integration and operation.

► **Calibration and AMC Services**

We offer both on-site and off-site calibration services for a wide range of process instruments. Utilizing our master meters, which are calibrated at NABL certified laboratories, we ensure the highest level of accuracy and reliability. Additionally, we provide Annual Maintenance Contracts (AMC) to maintain and enhance the performance of your instruments, guaranteeing their long-term efficiency and accuracy.

PRODUCTS

FLOW MEASUREMENT SOLUTION

ELECTROMAGNETIC FLOWMETER

ULTRASONIC FLOWMETER

TURBINE FLOWMETER

OVAL GEAR FLOWMETER

PRODUCTS

FLOW MEASUREMENT SOLUTION

PADDLE WHEEL SENSOR

VORTEX FLOWMETER

THERMAL MASS FLOWMETER

MASS FLOW METER

PRODUCTS

LEVEL MEASUREMENT SOLUTION

ULTRASONIC FLOWMETER

RADAR LEVEL TRANSMITTER

OUR CALIBRATION & TESTING SETUP

IN HOUSE CALIBRATION SET-UP

At SS Automation & Instrumentation Company, We have In House Calibration lab for Liquid & Air Flow measurement in which the masters used are calibrated from NABL Accredited Lab.

- **NABL TECHNICAL TIE-UP**

We have Technical Tie-Up with NABL Accredited Calibration Lab under ISO 9001-2015 Certified Company for following products

Electro-Technical (Voltage, current resistance, Time interval & Frequency measurements)

Thermal (Temperature negative range -196 deg celcius up to 1200 deg celcius)

Mechanical (Pressure Vacuum low pressure gauge manghelic gauge)

(Weighing Balance ,RPM group speed measurements)

- **Calibration and AMC Services**

We also take onsite and off site calibration jobs for all kind of Process Instruments.

We have well defined electronics testing equipment's for the Testing and calibration of Electronics of finished products

FEW OF OUR DELIGHTED CUSTOMERS

STEEL & POWER

FOOD & PHARMA

AUTOMOBILE
